

1

Improve Student Achievement in Literacy

Increase the percentage of students meeting expectations on analysis (level 3) questions.

Increase achievement in writing (ideas, organization, language use, conventions) in Grades 4 to 6.

2

Improve Student Achievement in Mathematics

Increase the percentage of students meeting expectations on analysis level questions.

Increase the percentage of students meeting expectations on the number strand in Grades 5 to 10.

3

Foster Student Well-Being Through the Creation of Positive, Safe and Inclusive Learning Environments

Support social, emotional, mental and spiritual wellness among students.

As a system, ALL SRCE STAFF have an important responsibility to support student learning, achievement, well-being and overall success. Let's ask ourselves each and every day three questions:

- What did we do today to support, connect, nurture, inspire, and engage with our children and youth?
- How are our students doing?
- How do we know?

The SRCE Programs and Student Services This Plan is responsive to recent results in student achievement, as well as trends over time. It also represents an understanding of the important connection between true achievement and authentic well-being, and the critical need to provide students with the conditions in which they can achieve their full potential. All goals, priorities and implementation strategies have been developed through an inclusive, equitable and culturally responsive lens to ensure that all students have access to a continuum of supports and services to facilitate greater success.

The establishment of the above-noted three goals and priorities evolved from a comprehensive review of evidence of student learning, as well as research and educational literature emphasizing the emotional, motivational and affective elements that need to be fostered in order to facilitate learning and develop the whole student.
